Letter of recommendation

I am the coordinator of Pyrkon 2012 fantasy and sci-fi convention in Poznań. I have worked with Genijusz.com on Pyrkon's 2012 IT project. Genijusz.com supported us with the mobile online version of our agenda.

All the times I found contact with Genijusz.com to be professional and responsive. There was no problem with adjusting both our applications to work together caring about the difference in character between Pyrkon and other conferences.

Best regards,

Anna Brożyna
